SUPU
von Georg A. Toth

Looking for a challenging mind game? **SUPU THE MIND GAME BY GEORG TOTH**

Introducing SUPU, the ultimate, free PC mind game for players of all ages.
This innovative board game is a combination of SUdoku and PUzzle with endless solutions,
making it great for players of all skill levels, and is a great way to engage your mind.
** Challenge your friends and family to a game and see who can master the SUPU first. **
Whether you're a beginner or a seasoned pro, this board game is sure to provide
hours of entertainment and mental stimulation.
Order SUPU today for free and get ready to test your problem-solving skills!
Add this exciting mind game to your collection and put your brain and eye to the test!

Task: Place up to 400 tiles on the board without repeating colour in longitudinal and transverse row!

Game Automation: You can use this option and have the first rows laid out for you,
or you can place all the tiles yourself, but avoid creating patterns.

Visual Help: This is a function to help you recognise the tiles.

Size: Depending on the screen, the displays Small, Medium and Large are optional.

Autosave: This option automatically saves the game state after each completion of a horizontal row.

Dropboard: When the SUPU dropboard is unlocked, you can return up to 2 tiles of each colour
from the SUPU main board.

Credits: The credit balance is topped up again after the completion of each cross-row.

Level: Complete a total of 16 levels and you are SUPU MASTER.
Once you have completed this, send us a screen shot of it to be entered into the prize draw.
You can win SUPU MASTER T-Shirts and Caps!

Download: *** The file access link will be sent to you by email. ***
Application: Choose the **install version** (Win .Net Framework 4.7.2. and newer) or the **standalone version**.
The standalone version runs without setup:
Just open the **eu.georgToth.Supu.exe** file in the **Application Files** folder and you can play SUPU!
Have fun!
